

## ND Prescribed Fire Info List--first email!

Bosmoe, Julianna <julianna.bosmoe@audubon.org>

Mon 10/18/2021 2:17 PM

Hello,

You have been included in this email group for **private lands prescribed fire in North Dakota** either because you expressed interest in this email list, a ended a workshop put on by Audubon Dakota, or because you have participated in the ND Prescribed Fire Cooperative.

There are exciting developments happening in North Dakota around private land prescribed fire. Having an email list for folks statewide who are interested in this topic will help develop the opportunities we have even further.

This is intended to be a place to share trainings, workshops, disseminate the latest information about Rx fire related to North Dakota, and help build landowner burn associations.

This will be at most a monthly email digest and only more frequently if something is time sensitive.

If you know of others who would like to join or you have content to share, please email julianna.bosmoe@audubon.org.

In this first email, I'd like to share a set of training videos that Pheasants Forever and Quail Forever of Nebraska developed earlier this year.

Their basic prescribed fire series covers why we burn, fire behavior, planning and preparation, equipment, weather, and techniques. If you are pining for burn season this winter, these videos will help carry you through!

**Prescribed Fire Educational Series Playlist:** <https://youtube.com/playlist?list=PLaB9StBffkEeLn5x5U0EBCvPGcPUnnJ6E>

**Here are the links to each individual video:**
